

SHADE KIT PLANTING PLAN

The shade kit will do best in areas that are moderately well drained and part sun/part shade. Plant plugs at least 1 foot apart. 16-18 inches is ideal. You may plant them wider to fill a larger area but know that your garden may look a little thin until it fills in. Apply a layer of mulch 2-3 inches deep and water as needed until established. This plan is just a suggestion. Remember that grouping the plants by species is ideal. If planting along your home or a fence, taller plants go in the back. Mulch and keeping a tidy border helps your planting look purposeful and cared for.

<i>Scientific Name</i>	<i>Common Name</i>	<i>Height</i>	<i>Bloom Time</i>	<i>Bloom Color</i>	<i>Plan color</i>
<i>Penstemon digitalis</i>	Beardtounge	1-3	April-June	White	Orange
<i>Gentiana andrewsii</i>	Bottle Gentian	1-2	October	Purple	Green
<i>Coreopsis tripteris</i>	Lanceleaf Coreopsis	1-3	April-June	Yellow	Red
<i>Diarrhena obovata</i>	American Beak Grass	2-3	June-July	Green-Gold	Light Blue
<i>Asclepias verticillata</i>	Whorled Milkweed	1-3	May-Sept	Cream	Brown
<i>Chasmanthium latifolium</i>	Inland Sea Oats	2-4	Aug-Sept	Green-Brown	Yellow
<i>Solidago caesia</i>	Blue Stemmed Goldenrod	2-3	Aug-Sept	Yellow	Pink
<i>Tradescantia ohiensis</i>	Ohio Spiderwort	2-4	May-July	Deep-rose blue	Turquoise
<i>Veronicastrum virginicum</i>	Culver's Root	3-6	May-Aug	White	Lt. Purple
<i>Zizia aurea</i>	Golden Alexanders	1-2	May-June	Yellow	Navy
